

Open Enrollment For Retirees

October 1 through October 31, 2003

Changes effective January 1, 2004

Open Enrollment will be held a bit earlier this year. Retirees may make changes to their health and dental elections during this open enrollment period. Please remember, if you do not have health or dental insurance through Fairfax County, you may not begin it at this time.

Once again this year, the Benefits Division of Human Resources will be developing a special Courier supplement specifically addressing Retiree related information that will be included in the Open Enrollment packages that will be mailed to retirees the first of October.

Please watch your mail for this important information!
